Annual 47 C.F.R. § 64.2009(e) CPNI Certification

EB Docket 06-36

Annual 64.2009(e) CPNI Certification for 2007

Date filed: February 14, 2008

Name of company covered by this certification: The Nebraska Central Telephone Company

Form 499 Filer ID: 802560

Name of signatory: Andrew D. Jader

Title of signatory: Vice President - Administration

I, Andrew D. Jader, certify that I am an officer of the company named above, and acting as an agent of the company, that I have personal knowledge that the company has established operating procedures that are adequate to ensure compliance with the Commission's CPNI rules. *See 47 C.F.R. § 64.2001 et seq.*

Attached to this certification is an accompanying statement explaining how the company's procedures ensure that the company is in compliance with the requirements set forth in section 64.2001 *et seq.* of the Commission's rules.

The company has not taken any actions (proceedings instituted or petitions filed by a company at either state commissions, the court system, or at the Commission against data brokers) against data brokers in the past year.

The company has not received any customer complaints in the past year concerning the unauthorized release of CPNI.

Signed Andrew D. Jader

ATTACHMENT

OPERATING PROCEDURES FOR COMPLIANCE WITH CPNI RULES

Nebraska Central Telephone Company (Company) has implemented the following procedures to ensure that it is compliant with Part 64 of Title 47 of the Code of Federal Regulations, Subpart U – Customer Proprietary Network Information (CPNI), § 64.2001 through § 64.2011.

Compliance Officer

The Company has appointed a CPNI Compliance Officer. The Compliance Officer is responsible for maintaining records and for ensuring that Nebraska Central Telephone Company is in compliance with all of the CPNI rules. The Compliance Officer is also the point of contact for anyone (internally or externally) with questions about CPNI.

Employee Training:

The Compliance Officer arranges for the training of all employees on an annual basis or more frequently if needed. All new employees are trained and given a NCTC CPNI Policy Manual when hired by the Company. The training includes, but is not limited to, when employees are and are not authorized to use CPNI, and the authentication methods the company is using. The detail of the training can differ based on whether or not the employee has access to CPNI.

After the training, all employees are required to sign a certification that they have received a manual and have been trained on the CPNI rules, that they understand the Company's procedures for protecting CPNI and they understand the Company's disciplinary process for improper use of CPNI.

Employees are instructed that if they ever have any questions regarding the use of CPNI, or if they are aware of CPNI being used improperly by anyone, they should contact the Compliance Officer immediately.

Disciplinary Process

The Company has established a specific disciplinary process for improper use of CPNI. The disciplinary action is based on the type and severity of the violation and could include any or a combination of the following: retraining the employee on CPNI rules, notation in the employee's personnel file, formal written reprimand, suspension or termination.

The disciplinary process is reviewed with all employees and is outlined in the Company's CPNI Policy Manual which all employees are given.

Customer Notification and Request for Approval to Use CPNI

The Company has provided notification to its customers of their CPNI rights and has asked for the customer's approval to use CPNI via the opt-out method. The company sends the opt-out notice every two years to those customers that have not previously opted out. A copy of the notification is also provided to all new customers.

The status of a customer's CPNI approval is prominently displayed as soon as the customer's account is accessed so that employees can readily identify customers that have restricted the use of their CPNI.

For the customers that have opted-out and said the Company cannot use their CPNI, that decision will remain valid until the customer changes it.

The Company will provide written notice within five business days to the FCC of any instance where the opt-out mechanisms do not work properly, to such a degree that consumers' inability to opt-out is more than an anomaly.

A copy of the most recent notification is kept with the files that are maintained by the Compliance Officer.

Marketing Campaigns

The company maintains a record of all marketing campaigns for a period of one year. The Compliance Officer reviews the campaign and all materials to ensure that it is in compliance with the CPNI rules.

Authentication

The Company does not disclose any CPNI until the customer has been appropriately authenticated as follows:

In-office visit - the customer must provide a valid photo ID matching the customer's account information and the customer must be listed on the account.

Customer-initiated call – the customer is authenticated if they are listed as a contact on the account and able to provide the last four digits of their Social Security or Federal ID Number. The account contact information can be located on the first screen accessed on a customer's account.

If the customer wants to discuss call detail information the following guidelines are followed:

- If the customer can provide all of the call detail information (telephone number called, when it was called, and the amount of the call) necessary to address the customer's issue, the Company will continue with its routine customer care procedures.
- If the customer cannot provide all of the call detail information to address the customer's issue, the Company will: (1) call the customer back at the telephone number of record, (2) send the information to the address of record, or (3) ask the customer to come into the office and provide a valid photo ID.

Notification of Account Changes

The Company sends out notifications to customers on a daily basis whenever a change is made on an account to any of the following:

- Contact name (and/or) ID #
- Address of record

The Company's computer system is programmed to automatically generate a notice anytime one of the above changes has been made to an account. The notices are put into a file which are then checked and printed off daily by the CPNI Compliance Officer. The notices are then sent to the postal address of record that same day.

Notification of Breaches

Employees will immediately notify the Compliance Officer and fill out a statement of breach if there is any indication that a breach may have occurred. If it is determined that a breach has occurred, the Compliance Officer will do the following:

- Notify the United States Secret Service (USSS) and the Federal Bureau of Investigation (FBI) as soon as practicable, but in no event later than 7 business days after determination of the breach. The notification will be via the FCC link at <http://www.fcc.gov/eb/cpni>.
- Notify customers only after 7 full business days have passed since notification to the USSS and the FBI, unless the USSS or FBI has requested an extension.
- If there is an urgent need to notify affected customers or the public sooner to avoid immediate and irreparable harm, it will be done only after consultation with the relevant investigating agency.
- Maintain a record of the breach, the notifications made to the USSS and FBI, and the notifications made to customers. The record should include dates of discovery and notification, a detailed description of the CPNI that was the subject of the breach, and the circumstances of the breach.
- Include a summary of the breach in the annual compliance certificate filed with the FCC.

Annual Certification

The Compliance Officer will file a Compliance Certification with the FCC by March 1 of each year, for data pertaining to the previous calendar year.

Record Retention

The Company retains all information regarding CPNI filed in the possession of the Compliance Officer. Following is the minimum retention period we have established for specific items:

- CPNI notification and records of approval –one year
- Marketing campaigns – one year
- Breaches – two years
- Annual certification – five years
- Employee training certification – one year beyond employment
- All other information – two years
